My Story: Starting from Zero:

I want to start this book with a simple truth: being a student is not easy. Your time is divided between studies, family, friends, and your own dreams. On top of that, limited pocket money or financial pressure makes life even harder. I've been through this myself. I know the feeling of wanting to support yourself, to carry your own expenses, but at the same time making sure your income is halal and full of barakah.

My Story: Starting from Zero:

I was just a normal student. My day was filled with classes, assignments, and the usual student struggles. But one thing always bothered me: money.

My pocket money was limited. Sometimes it covered the basics, but not the little things I wanted – like extra books, courses, or even just saving up for something personal. And I didn't like asking my parents for more. I wanted to be independent, even if just a little.

My Story: Starting from Zero:

E-Books:

Then I discovered the idea of ebooks. At first, I honestly thought: “Who’s going to buy a PDF?” But the more I learned, the more I realized this was something real: a halal way to share knowledge and earn money at the same time.

I’m still at the beginning of my journey – I haven’t made my first sale yet. But I know one thing: this is the right path. That’s why I decided to write this guide.

Because I know there are thousands of students like me, starting from zero, with limited money but unlimited potential.

Now, Create your own Story:

Digital product:

A digital product is something you create once and sell many times online. It is not a physical item, it's a file that people download.

Examples of digital products:

E-books (like the one you're reading now!)

Study guides or notes

Checklists and planners

Templates (resume, budget sheet, CV, designs)

Wallpapers or digital art

💡 You create it once → upload it → and every time someone buys it, you earn.

Now, Create your own Story:

**Good news: you don't need a
degree, a big laptop, or an
expensive setup.**

**Requirements:
A phone or basic laptop**

Internet connection

Free tools (like Canva or MS Word)

**A free account on Gumroad (or
similar platform)**

**That's it. No degree. No huge
investment.**

**Indeed, Prayer prohibits
immortality and wrongdoings**

Now, Create your own Story:

A “niche” means your topic or area of focus. Don’t try to sell everything – pick one lane.

Some niche ideas:

- 1. Students – study tips, notes, exam guides**
- 2. Islamic – duas, reminders, planners, kids learning guides**
- 3. Fitness – workout plans, diet charts, healthy recipes**
- 4. Finance – budgeting templates, saving guides**
- 5. Self-Development – productivity planners.**

👉 Start with something you know, or something you can research easily.

Earning is good,
But in the Halal
WAY!

**Now, Create your own
Story:**

**Use Canva (free) → choose a
template → add text.**

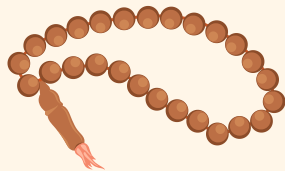

**Keep it simple and short (even
5–10 pages is fine).**

**Add headings, small
paragraphs, and images/icons.**

 **Don't overthink design.
People care about value, not
just looks. Just as I did. 😊**

**Now, Create your own

the world. 🌍**

**Now, Create your own
Story:**

Start Selling

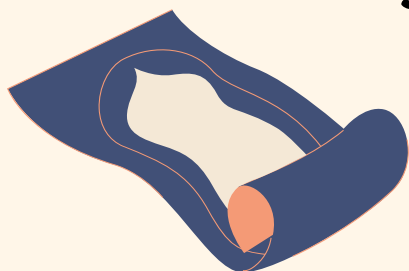

**Selling = letting people know
your product exists.**

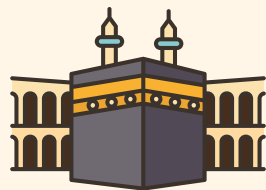

**Share the benefit (“This guide
will save you time / help you
study / grow your deen”)**

**Keep the link simple (gumroad
gives you one)**

**When someone buys → Gumroad
automatically delivers the file →
You get paid**

Now, Create your own Story:

Promote on Social Media

**Choose a platform (Instagram,
TikTok, or YouTube Shorts).**

Tips for promotion:

**Share short tips/reels about your
topic**

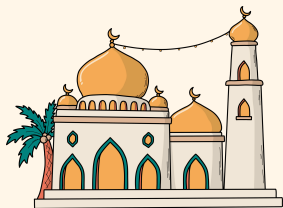

Show a sneak peek of your ebook

**Post motivational Islamic reminders
about halal income**

Add “Link in bio” for Gumroad

 **People buy from those they trust.
Share your journey + tips → sales will
come.**

Now, Create your own Story:

Repeat and Grow 🚀

Your first ebook might be small. Your first sale might take time. But remember: success is built step by step.

Create one product → sell it.

Learn from mistakes → improve.

Make another product → sell again.

Build your audience → people will trust you more.

The formula is simple: Create → Sell → Promote → Repeat.

💡 Even if you start small, with patience and consistency, your halal income will grow. And most importantly, it will have barakah, because you're doing it with the right intention.
